CHAPTER 2

Green Storm has provided us with Crious Engineers for our Ice Mining Caves.

UnderStand, holding Queen Isaforye here will hold Lord Basfarti for ordering a full strike.

*You are generous in the
bedroom as my Slave
I must ask you to be apart
of the Miners not against
us*

Minacle Menace had a valid point ; to make my encampment a better situation I should humble myself as a servant.

*Isaforye , powers
dwindle as she sits
in the Ice Mines.*

*Why, would you
want to clone Isaforye
for the Spartans?*

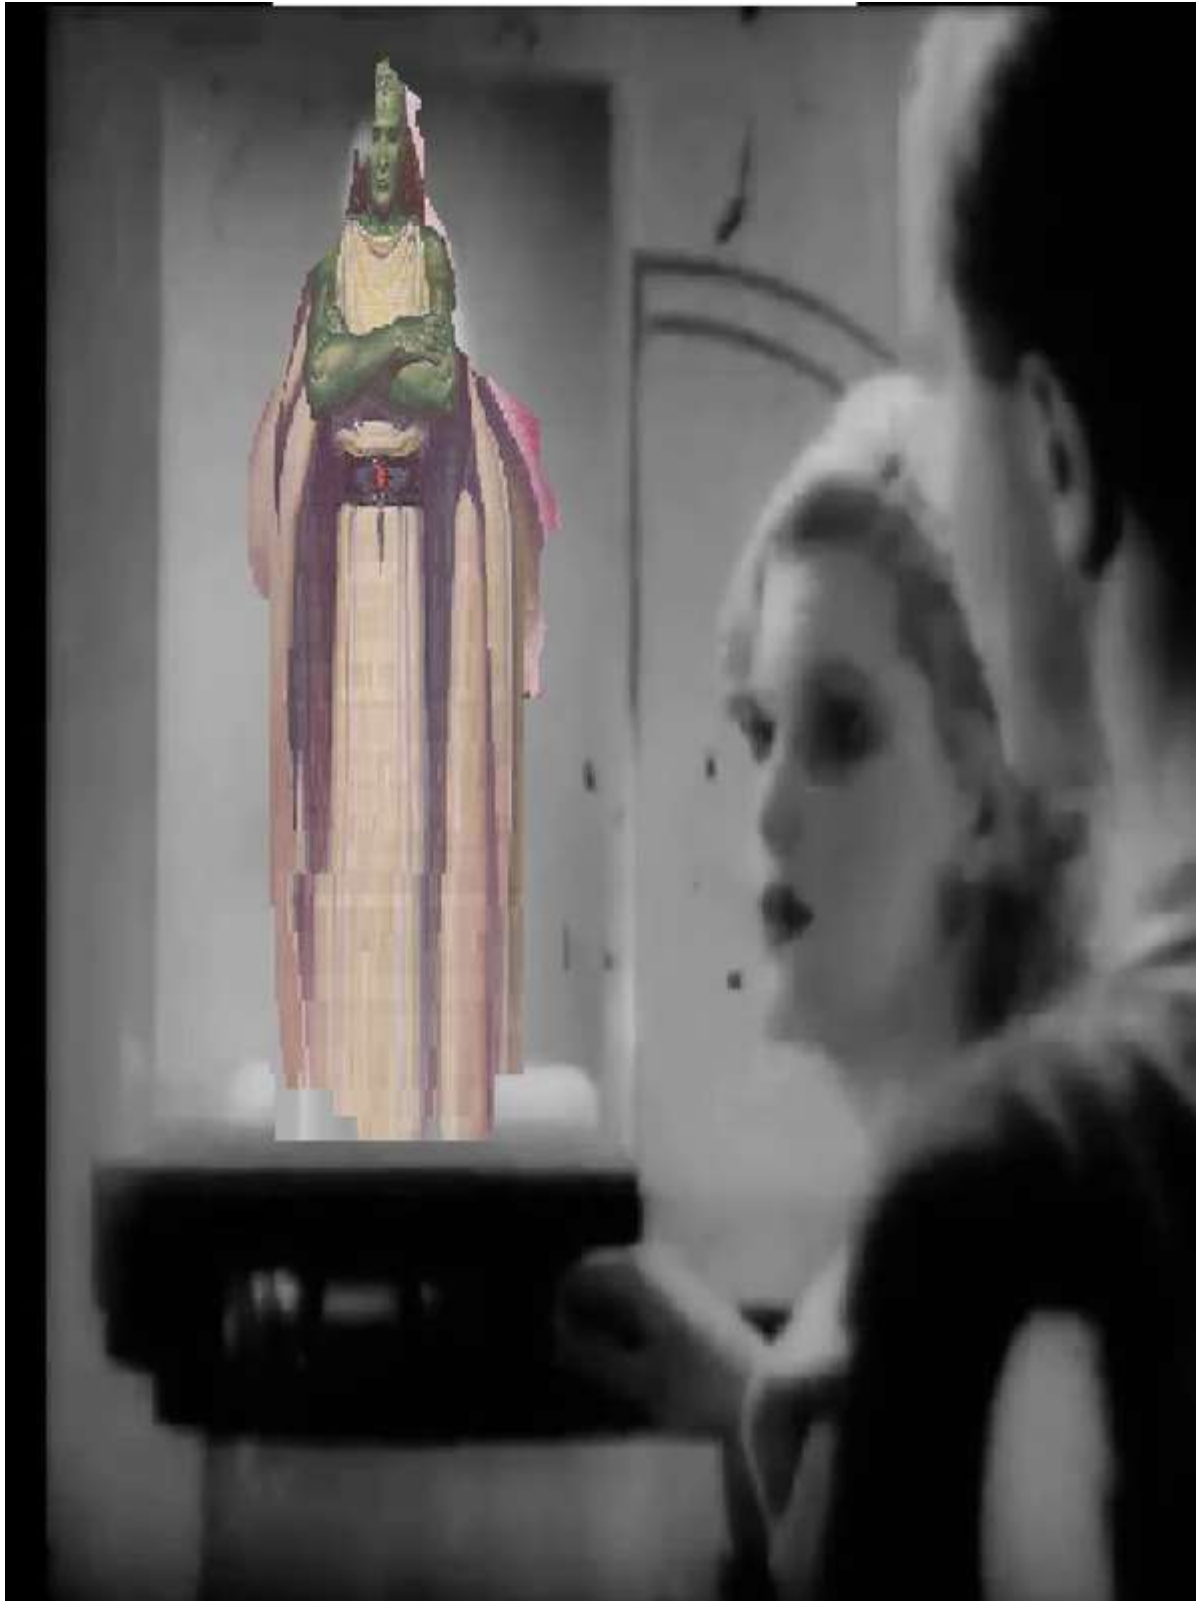

*Cousin your asking myself to work or
Oversear the Ice Mine?*

*Empathy, was learned.
The cave mine is
radioactively harmful.*

*Lord Basfarti does not
legalize mutant Black Orb
nor whatever the Pirates
are Mining in those Ice Caves !*

*You care about the
Invisible People?*

Radiation ?

*What we produce is none of your concern;
it's noble cause against your Sister, Lord
Basfarti !*

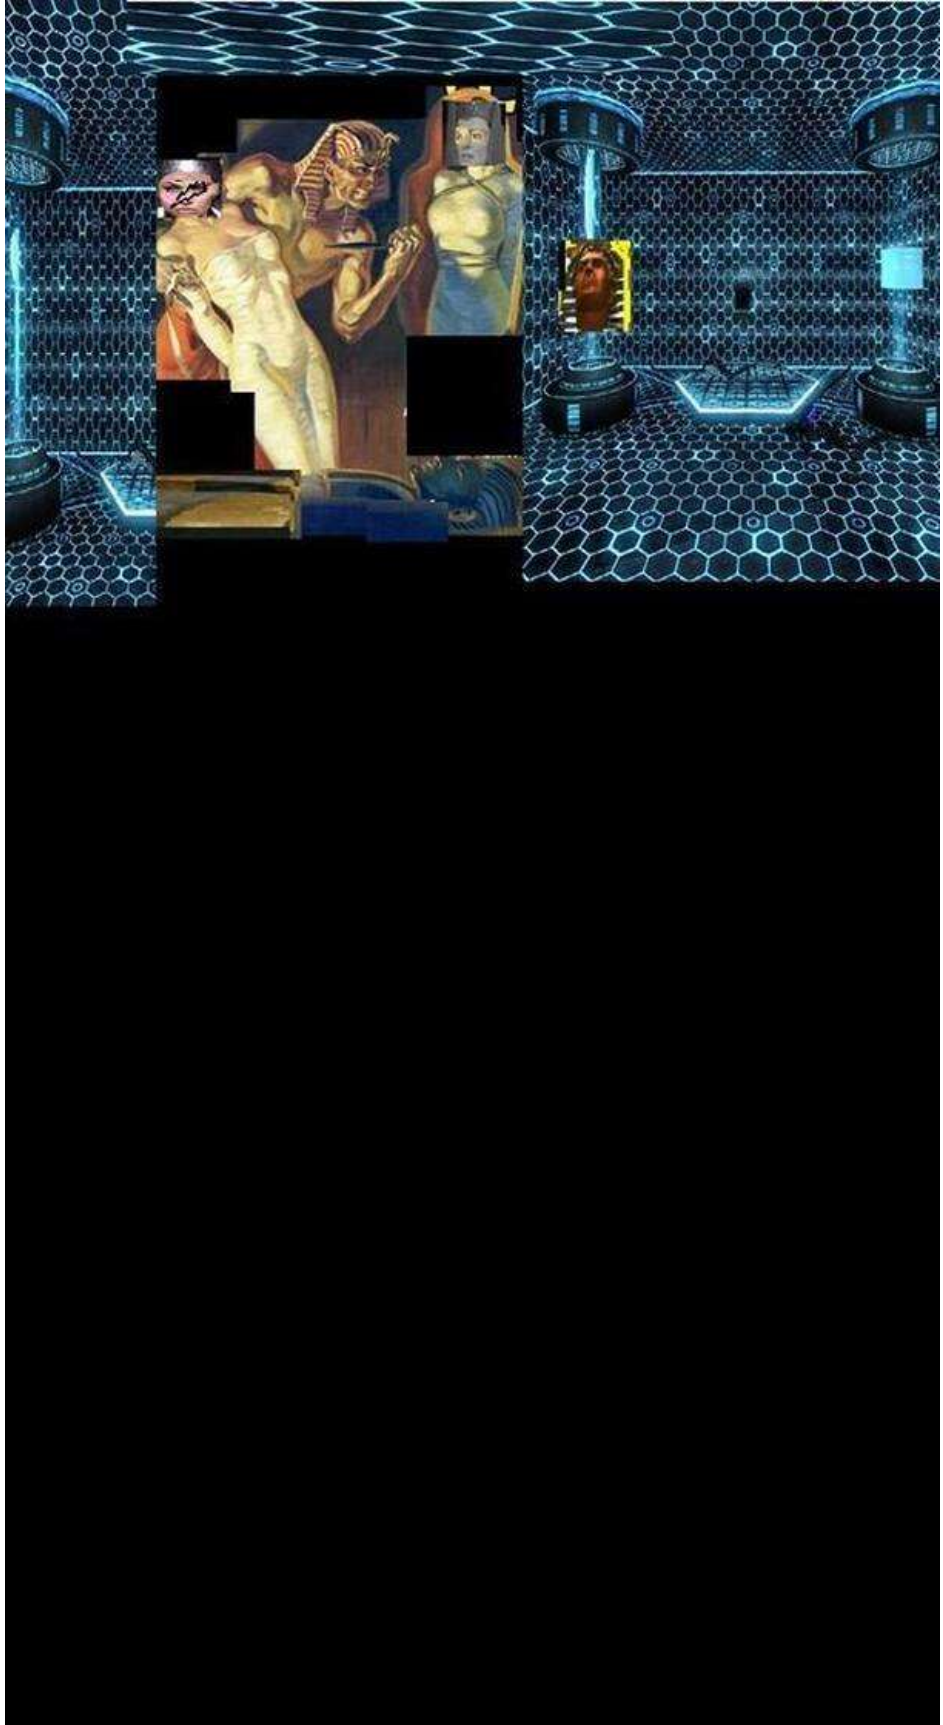

*Isaforye was correct!
The fuel we trade!
The miners only have
a few sun cycles left!*
